GENERAL CONDITIONS FOR RESERVED FORESTS.

I.—The rights continued in the Reserved Forests of Kulu Proper, Inner Sahraj, Outer Sahraj and Rupi, with the exception of rights admitted to the Rai of Rupi, are subject to the following general provisions:—

(1). All rights to forest produce or grazing are subject to such conditions as to payment or otherwise as Government may see fit to impose at a revision of the Land Revenue Settlement.

(2). All rights are appendant to the cultivated land of the recorded rightholders, and may be acquired and alienated only with such land.

(3). Forest produce obtained in the exercise of admitted rights may not be sold or bartered or alienated in any other way.

(4). A right to forest produce is extinguished when the object over which the right is exercised ceases to exist; and Government is not in any way bound to take special steps to prevent the object (admitting of the exercise of the right) ceasing to exist in the ordinary course of nature, nor may the rightholders take such steps.

Illustration.—A phat is being covered up with young kelo or kail. Government is not bound to, and the rightholders may not, cut down the trees or in other ways endeavour to ensure the continued existence of the phat.

(5). In case of dispute as to the number of cattle, sheep or goats that any rightholder may graze, or the number of trees he may cut, the number must be determined with reference to the relative amount of revenue paid by each rightholder, the total for all rightholders never exceeding the recorded maximum.

(6). A portion of any forest may be closed with the sanction of competent authority for such time as may be necessary, and all or any of the rights admitted in the forest may be suspended in such portion for such time, provided that the area open for the exercise of these rights be sufficient and in a locality reasonably convenient for the exercise of these rights.

II.—The rights allowed to the Rai of Rupi in the reserved forests of Rupi are subject to the following general provisions:—

(1). Forest produce obtained in the exercise of admitted rights may not be sold or bartered or alienated in any other way.

(2). A right to forest produce is extinguished when the object over which the right is exercised ceases to exist, and Government is not in any way bound to take special steps to prevent the object (admitting of the exercise of the right) ceasing to exist in the ordinary course of nature, nor may the Rai take such steps.

Illustration.—If the chestnut trees in a forest all die out, Government is not bound to, and the Rai may not, plant such trees to ensure the continued exercise of the right to take chestnuts.

(3). A portion of any forest may be closed with the sanction of competent authority for such time as may be necessary, and all or any of the rights to forest produce admitted in the forest may be suspended in such portion for such time, provided that the area open for the exercise of these rights be sufficient and in a locality reasonably convenient for the exercise of these rights.

(4). The Rai may charge whatever consideration he thinks proper for the licenses to snare musk deer and hawks.

(5). The Rai is responsible that the nets and snares are in reality suitable for the capture of musk deer and hawks, and not intended for the capture of pheasants or other game.

1	Chauki	Full rights.	In his Assessment Report of the Jagir, Mr. Clarke, Assistant Commissioner, wrote as follows :—" The Malana stream is not the boundary of the Kanawar Kothi for its whole length. From the junction of the Malana and the Parbati the boundary ascends the ridge which forms the watershed between the two rivers, and follows it for a considerable distance before it again descends to the bed of the stream, which is the boundary in its upper course." This is incorrect—see Lyall's Settlement Report, paragraph 75. The ridge is the boundary, and the line having once gone up to the ridge, does not again descend to the stream.

				Seri-da-Nal ... Dhan-chuli ...	Grazed by Palchan Phati.	Bagtu of Khokhan Kothi claimed Seri-da-Nal and Dhan-chuli, as well as the two admitted to be grazed by him, but the evidence recorded is against his claim, and it is also not supported by the settlement record. It is customary for the Rasus of the Lagwal sheep to have their fields manured by the joint flocks before starting for the thaches and after their return. This is said to be the only consideration they take. The Lagwal sheep do not remain in the thaches on their way to Lahoul, but on their return they graze in them for two months, Assauj and Kartik.

				Khanora	Grazed by Palchan Phati in Jait and Baisakh and by Kothi village alone in Bhadron, Assauj.	
12	Do.	Matiban	......	Gushal Kuling	Full rights ...	Brahn and Drar villages of Kais Kothi claimed right of grazing sheep in Siandar, Rai-age and Kathior thaches, but the claim was not supported by any sanad, nor by an entry at settlement, and being in part denied by Gushal it was disallowed, as Gushal village has no authority to allow outsiders to graze for any consideration. There was otherwise much contention as to the thaches in this forest, Kuling claiming rights that were denied by Gushal. The settlement record was, as far as possible, adhered to. The grazing in this forest is very extensive, and there has probably not been any well-established arrangements as to what villages should graze.
				Thaches—		
				Siandar, Rai-age, Kathior, Jamu-dugh, Neru-di-Sari, Mohri-da-dugh (or Mohru) Balidugh.	Grazed by Gushal.

				Hanasu ... Dudlu ... Jamir ...	Grazed by Aleo.	
				Sarotu ... Siundar ... Mari ... Jogidugh ... Kaniari-Mundiari,	Grazed by Shuru and Prini.	There has been a long standing dispute between the Shuru and Prini people as to the division of the thaches, Shuru claiming many more than are now recorded in its name; not that Shuru has not ample grazing for its sheep, but because of the manure and the wool given by the Gaddi shepherds to those who are supposed to have the first right (see the Report).
				Bhujdhar ...	Grazed by Prini and Aleo.	
				Kansir, Mirasu, Sethan, Brijaling, Shating, Niara, Lamadugh, Dumdumri, Pahlkanda, Piang-neru, Latohr, Duham and Bangdwari, Mauzi-ra-dugh, Jawara, Jaugehonda-dugh, Dung Khararewar.	Grazed by Prini alone.

Goru, Raithach ..., Shimarar Uperla, Bant-rewar ... } Grazed by Gojra phati. Kur-ri-thach ... Grazed by Jagatsukh village and Gojra phati.	Sajla phati of Barsai Kothi claimed the right to graze sheep in Shitor, Morthach, Shothach, Jamudugh, Topha-age, Panthach, Kapha, Rauasu, Banshiru Uperla, Borti-rawar, which thaches are in the basin of the Karnoi above the Banari Thakur Dogris which belong to Sajla. It was alleged that a suit had been decided in favor of Sajla, but no copy was produced, and in order to settle the matter, I ordered that Gojra phati had rights in the thaches, but that the owners of the Dogris should graze their cattle, sheep and goats near their Dogris until copy of the order be produced. 							Pat-thach ... Le-puin ... } In basin of Chaki Nal grazed by Barhai, Baltha, Raman, Kumarthi and by Nagar Phati.	In regard to most of the thaches from Pat-thach to Santich, there was a virulent dispute between two parts of Nagar Kothi. In former days, when Jamlu Deo was much feared, the people of Pulang, Soich, Sharan and Rumsu were attached to the Malana temple, which had mafis in these villages; and there was no intercourse between these people and the rest of Nagar Phati, of which they now form a part. These four villages now claim equal rights with the others. The only means of settling the dispute was to record the thaches in the name of the whole Phati, except where there was some satisfactory evidence to proceed upon.

INDEX.

No.	Kothi.	Forest.	Proprietary rights, being cultivation included in the forest limits.	Forest rights admitted.		Remarks.
1	Pandrabis ...	Brati ...	......	Daman ... Nal ... Kyun dhar ...	Full rights.	There is a dispute as to the boundary between Kulu and Basahir at this point, *vide* Forest Settlement Officer's No. 14, dated 13th May 1882, to Deputy Commissioner. In the area between the Dunku Dhar and the Jawadi-gar, the Kulu people claim the following thaches:—Maloa, Maler, Dadla which lie comparatively low down ; also Manjko, Gaithach and Khori, which are nigahrs. There is a dispute among the Kulu people as to who have rights in these nigahrs. Kesu Rasu of Mohal claimed a right in Gai and Khori thaches to the exclusion of all others. Daya Ram, Rasu of Dhaul Kothi, claimed a right in Khori, which is more valuable than Gaithach, in which the Pandrabis people were inclined to let Dhaul sheep graze. Laju Negi of Kot Rasu grazes in Manjko. Grass is also cut by Sarga village beyond the Mohaligar, which is considered by the Basahir people to be the boundary. The great sheep path to Dunku runs along the main ridge through the following thaches ;—Mathed, Ganagai, Paulu-chaner, Maghain, Baihla, Matoli, Mauta, Ucha, Moharna, Nokua-pani, Karna-Dunku.
				Dhar ... Humku ... Ban ... Sarga ... Kail ... Mohal ... Barguri ... Bagan ...	Building timber and nirgal.	
				Thaches.		
				Brati ... Shila ... Mira-gai. ... Keloa-dhar ... Shalu-marach ... Aleo ... Mandru ... Chul ... Tikar ... Nag-jata ... Chalao ... Khania-dhera ... Timbi ...	These are all gahrs grazed by the sheep of Kushua and Sarga Phatis, and also occasionally by some from Tunan Phati, under Kesu, Rasu of Mohal.	
				Moharna ...	This nigahr is grazed by Bali Phati of Dhaul Kothi, under Daya Ram, Rasu, and after them the sheep of Pandrabis Kothi under Kesu, Rasu. If the Dhaul sheep do not come in Sawan, they may not graze at all. This was the arrangement agreed to after considerable discussion.	
2	Ditto ...	Jiya ...	......	Bagan ... Ban ... Humku ...	Full rights, except building timber.	
				Sarga ... Dhar ...	Fodder leaves, fuel, agricultural implements and goat grazing in Posh and Magh.

Humchain of Kanawar Basahir grazes on the Bagruri-age Dhar and on to Dunju. He, or some one on his behalf, brings sheep. This winter *ban* is known as Bhandari, and whoever grazes it pays Rs. 6 to the Pandrabis Kothi.	There are 7 runs in this kothi on the banks of the Sutlej in which foreign sheep graze— (1). Kunrard, above Siaru Nal, below Bungcha, grazed by Pitambar Das of Basahir, who pays no tirni, as he alleges he holds it free from a former Raja of Kulu, but he gives a large goat to Jakru Nag in Humku. (2). Bhandari, from Bagruri-age Dhar to Dunju, included in demarcated area. (3). Sharu, from Dunju to Bandar-thana, grazed by Manohar Das, Wazir of Basahir. No tirni is paid; same as (1). (4). Gada-Mawa, from Bandar-thana to Odidhar, included in demarcated area (2nd class forest No 6). (5). Hocha-Mawa, from Odidhar to Chakchaki Dhar, grazed by Kala Patwar of Plach Kothi, who pays Rs. 4-8 to Pandrabis Kothi. (6) Baukhun, from Chakchaki Dhar to Ludru Nal, grazed by Manohar Negi of Plach, who pays Rs. 4 to Pandrabis Kothi. (7). Ahzar and Trawi, lying above Baukhun, grazed by Charkhu and Jaid of Basahir, who pay Rs. 2-8 to Pandrabis Kothi. A sum of Rs. 23 is now paid by Pandrabis Kothi along with the revenue on account of these runs.

There was a dispute between the people of Dim and of Bachair Phati of Naraingarh as to the right of grazing in the gahrs and nigahrs. The record as prepared is in accordance with the existing custom, and general circumstances point to its correctness. Dim has ample grazing in Mandri-bil and Drodi, which lie immediately behind the village, while Bachair Phati from its position would naturally have a right of grazing in Chul, which lies on its border.

It was entered in the Settlement Record in name of Tos, and that record is maintained. Thakaru may bring a suit to establish his claim.		The Suket, Sahraj and Rupi sheep coming from the lower kothis do not go into Surjani, Keoni or Nalchi, but keep on the left bank of the Parbati as far as the Balu Bridge, which they cross, and keep along the main road, crossing the Bramganga, and spending a night at Raskar. They cross the Shila Bridge and recross by the Garthigar Bridge, following the main road to Barsaini. Here some of the Sahraj and Rupi sheep leave the road and go into the Tos Nal and the extensive grassy slopes above the forests. Most of the Suket sheep cross by the Phulga Bridge, pass through Kutangcho, recross again by the Chipuling Dippi to Nakthan, and again by the Mandar Dippi to Kirganga, on the left side of the Parbati. Some, however, keep on the right bank from Barsaini, but all go to Kirganga, a large flat plain, where all meet, and then go to their different runs.

Ram Chand does not graze Dilar nigahr, which has for some 14 years been grazed by Chingu of Srigarh Kothi, who gives through Ram Chand a goat as a propitiatory offering to Jamlu Deo of Tos. Tiri-rewar nigahr has been grazed by Mula of Srigarh Kothi.		
			Bai-niru nigahr ... Raita gahr ... } Grazed by Phagu village of Chung. The nigahr is grazed as of right, but the gahr once belonged to Moti Ram, son of Anup Ram of Bahlan, who has not grazed for many years, and who cannot now be considered to have any right even though Phagu village has given him 5 annas per annum.		
			Sara nigahr ... Kotu or Kotlu nigahr Umga nigahr ... } Grazed by Raskar and Uchich but in consideration of manure to Raskar and Uchich, Binu of Srigarh Kothi has been allowed to graze in Kotu or Kotlu.		
			Dumgan nigahr—Grazed by Sangat Ram, &c., of Kathera, Himri Kothi, who give a sheep as a propitiatory offering to Jamlu Deo of Tos. Ram Chand once grazed it, but now he has no right.		
			Chalchali nigahr—Grazed by Bangu and Anant Ram of Himri Kothi, who give a small goat as a propitiatory offering to Jamlu Deo of Tos. This is a good nigahr, but has the reputation of being haunted, as several shepherds have died.		
			Dharing gahr—Grazed by Narindi and Bini Ram of Jauja, who give a small goat as a propitiatory offering to Jamlu Deo of Tos.

There are 4 flocks under Bimu, who graze group (1); Jabi, group (2); Debu, group (3); and Mohnu, group (4). In consideration of manure to Tos village, Sariya Negi of Himri has been accustomed to graze Tichu nigahr and Drangar gahr with Tos; but the gahr only in autumn. The other gahrs in group (1) are not grazed by the Sahraj sheep, which require to go down earlier than the village sheep. Rangu and Anant Ram of Himri Kothi, who graze Chalchali nigahr, graze Kral-nihas along with Tos in return for manure. Last year there was a dispute about Jamu thach, which, contrary to the wish of Tos, was grazed by Mula of Srigarh Kothi with consent of the Rai, but Mula has no right.		

				Painj-ra-losha nigahr was claimed by Tahlu, son of Khem Das of Chauki; also by Tos village. Painju was entered at Settlement in name of Tos, and so also here. but the sheep of Chauki have grazed somewhere in Tos Nal, and some of the Tos people did say it had been grazed by sheep from Kotkandi. A civil suit may be brought to settle the matter. There is a similar dispute as to Kala-rim (*see* Sharam nigahr).

An attempt has recently been made to exclude the Dagis and to charge them for grazing, but the Dagis have just as much right as the Kanets. The five Kanet families have also divided the gahrs among themselves, and each has brought with him some Sahraj sheep, belonging to Tulu, Sisu, Bhagat, Bini Ram, Man Das and Man Chand, all of Janja, which were allowed to graze in return for manure. This division cannot be accepted, and, as at Settlement, all the runs are now recorded in the name of the whole village. Maru, who is manager of the temple, claimed exclusive right, but this claim was contrary to Settlement Record, also to the custom prevailing in the other thaches of the Deota. Warli Ila nigahr.—Grazed by Jugat Ram of Manikarn, who pays Re. 1 per annum to thakar Murli Dhar of Buin.	1. The right to take nirgal, chaku, aris, for baskets, &c., also patis, karu, dhup, burj-patra. 2. The right to cut oak for charcoal ; also branches of kail for charcoal. 3. The right to give licenses to snare musk deer in spring and summer up to the rains and from 15th September to the end of December. All these rights are subject to the general conditions recorded in regard to the Rai's rights. Sheep from Sahraj have been accustomed to graze in this forest.

				Pata-ri-il nigahr ... Jawara " ... Kochar " ... Dhara " ...	Held by Chananu and Bagtu of Jalugraon, who allow others to graze in return for manure. Pata-ri-il has thus been grazed by Jabi of Janja Kothi, and Jawara and Kochar by Nalindi and Balu of Janja, who each gives four nights' manure both going up and coming down. Dhara used to be grazed by Balu, but last year it was given to Sham Das of Kasol on the same terms as to manure.		
				Rati runi nigahr ... Baintar " ... Melti dothla" ...	Grazed by Jugat Ram, &c., of Manikarn.		
				Chaba-age nigahr ... Muni-ra-thach " ... Bajona dothla " ...	Grazed by Sham Das of Kasol and with him the sheep of Sablu of Chet in Chaini Kothi.

				Kareri gahr ... Rahn " ... Damkus " ... Mari-age " ... Phalsu " ...	These thaches appear to belong jointly to Mian Paru and Lachman, but they have not grazed in them continuously, but have allowed Sahraj sheep to go into them on payment of some consideration. In this way Dinu of Janja has been accustomed to graze Kareri and Rahn and Damkus, and last year Phalsu, there being some dispute with Maru, of Dadai. Bhagat of Roghopur has grazed Mari-age.		

5	Kanawar ...	Kirganga ...	......	Nakthan—Grass and leaves of chestnut, mohru, elm and magshel for fodder. He distributes the grazing and settles disputes among the Suket shepherds, and assists in collecting the dues paid to the Rai. These dues consist of— (1). Rs. 2 per 100 sheep or goats. The right to give licenses to snare musk deer in spring and summer up to the rains and from 15th September to the end of December. 3. The right to give licenses to snare hawks from 15th September to the end of December. These rights are subject to the general conditions recorded in regard to the Rai's rights. No foreign sheep graze in this forest.	The Rai claimed chestnut wood from here, but the claim was disallowed not only because it was not very well established, but principally because there is sufficient outside the demarcation to supply his wants.

82	Sainsar ...	Kaili Kanda, Tilaru, Shengan and Sainjat.	......	Maraor ... / Sakti .. — Full rights near the villages. Sakti keeps sheep in Shigar Dogri on edge of forest, and they graze in it; so also Das of Majan Churu and Paji of Maraor keep sheep here in winter and each gives an offering of Rs. 1 to Bit Deota of Sakti. The other two families in Maraor spend winter in Sakti and each gives an offering of annas 8 to the Deota. (1). Thaches in Shengan and Sainjat, that is, between Gulwari Nal and Shigar Nal— Sainjat gahr—Grazed by Devi Ram of Himri—see Rakti nigahr in Parali No. 33. Shengan gahr—Grazed for 2 years by Dharm of Suket—see Parali No. 33, Jaula (1) dothla. Pangara gahr ... / Galu thach do thla / Gulwar nigahr ... — Grazed by Jogi of Naraingarh for the last 4 years: he gives an offering of Rs. 1 to Dumal Deota. Before him these thaches were unoccupied, but some 15 years ago Lalu of Himri grazed them. Kaili thach gahr ... / Hochi Sitogana dothla / Dudi-tapra nigahr .. — Grazed by Sakti. Bali nigahr ... / Bauhli dothla ... / Thrain gahr ... — Grazed by Dila Ram of Naraingarh, who gives an offering of Rs. 1 to Bit Deota of Sakti. Thakaru, son of Jagtu of Kathaogi, claimed Bali nigahr and Kaili Kanda gahr (see next part of the forest) and no doubt he used to graze them, but he admitted he had not come for many years. Lakhcha gahr ... / Moti Sitogana nigahr — Grazed by Ablu of Kuthua Naraingarh for some four years. Bhagat Ram grazed one year, about 10 years ago. Ablu gives Rs. 1 as an offering to Bit Deota of Sakti. Chinaoti nigahr—Grazed by Majan and Mail, which give As. 8 as an offering to Bit Deota. (2). Thaches in Tilaru and Karli Kanda, that is, between Shigar Nal and Aoti Dhar— Kaili Kanda gahr—There are two thaches of this name near each other; one was grazed by Thakaru of Kathaogi (see Bali nigahr), and the other is grazed by Naranyanu of Kaniargi. The Majan sheep also sometimes graze in these thaches, but with permission of the right-holders. Monal dothla ... / Rakna „ ... / Socha „ ... / Rachain nigahr .. — Grazed by Majan and Mail villages, which give Rs. 1 as an offering to Dukru Deota of Majan.	1. The right to take karu, patis, dhup, faran, burj-patra. 2. The right to cut ash (angha). 3. The right to give licenses to snare musk deer in spring and summer up to the rains and from 15th September to the end of December. 4. The right to give licenses to snare hawks from 15th September to the end of December. These rights are subject to the general conditions recorded in regard to the Rai's rights. Sheep from Suket and Sahraj have been accustomed to graze in this forest.	Some of the Sahraj sheep which graze in this forest come in by the path from Girthan Bridge and Majan village through Gara and Karshu thaches. But some, especially those for the upper runs, come from Majan Galu in Shangar Kothi, to Humkani thach and Tathapani thach, which is on the Sainj just opposite Maraor. From this latter thach they cross into Rupi, or go up to the Chakrer thach, which seems to be sometimes grazed by the Naraingarh sheep.

No.	Kothi.	Forest.	Proprietary rights, being cultivation included in the forest limits.	Forest rights admitted.	Rights of the Rai.	REMARKS.
33	Sainsar ..	Parali ...	......	Sartu gahr .. , Tilaru nigahr ... — Grazed by Jauli, Tharer, Hurcha and Chamar-ra under Dila Ram Rasu of Bahlan Kothi. Maraor—Full rights in part near the village, but sheep and goats spend the winter in Sakti or lower down. *Thaches*— Dewa-age or Dulogahr gahr..., Reunsu gahr ... — Grazed by Parma Nand of Naraingarh in consideration of six nights' manure to Maraor village. Each of the four zamindars gets six nights and gives 2 paths of grain to each shepherd. Nain-thua gahr—Grazed by Bija Ram of Gahr in Naraingarh. Bramchuli Moti gahr ..., Ral dothla ..., Prali Danswari nigahr (of Sahraj) — Grazed by Tulsu of Dogi in Naraingarh. Jaula (1) dothla ..., Manja-tapri nigahr — Grazed for the last two years by Dharm of Suket; his gahr was Shengan. Dharm used to come before and he then grazed Bramchuli, Ratidwar, Jaula and Prali Danswari. Tulsu did not come then. Manja-tapri is in reality part of Prali Danswari. Bramchuli Hochi gahr ..., Jawara (in basin of Rakti) dothla, Gugu-mua nigahr ... — Grazed by Tula, Kanet of Dogi in Naraingarh for two years. They were once grazed by Dasu of Suket, also by sheep from Himri Kothi, and for some years were not grazed by any one. Kaili thach gahr ..., Jawara (in basin of Suchainga) dothla ..., Suchainga nigahr ... — Grazed by Maraor village which gives an offering of Rs. 1 to Dumal Deota.	1. The right to take karu, patis, dhup, faran, burj-patra and reuns. 2. The right to give licenses to snare musk deer in spring and summer up to the rains and from 15th September to the end of December. These rights are subject to the general conditions recorded in regard to the Rai's rights. Sheep from Suket and Sahraj have been accustomed to graze in this forest.	There is a dispute as to the boundary between Inner Sahraj and Rupi above the place where the Sainj branches into several small streams of about equal size. The Rupi people, including the Rai, allege that the Danswar Nal is the boundary, and the people of Shangar Kothi say it is the Rakti Nal. The bondary is of some small importance as the Rai gets grazing dues on account of the thaches in Rupi. Between the two nalas there are two thaches the Rakti thach and Prali Danswari. These thaches are given in the Settlement Record of Shangar as being in that kothi, and moreover in the list of thaches, prepared at the Revenue Settlement of Rupi, an entry was made that these two nigahrs were in Sahraj, but that Moti Bramchuli and Sainjat, which are the thach-gahrs of these two nigahrs, were in Rupi. It appears from this that the Rakti Nal should be considered the boundary. The following thaches are admitted to be in Shangar Kothi, Inner Sahraj, *viz*:— Mati Naina ... Grazed by Bija Ram and Kaulu of Naraingarh. Bari Naina ... Grazed by Parma Nand of Naraingarh—see Deo-age gahr.

Gartu gahr ... Rati-dwara dothla ... Mathaun nigahr ...	Grazed by Har Das of Dogi in Naraingarh for the last five years; formerly unoccupied.	Shili Danswar ...	See Bakrachi gahr.
Bakrachi gahr ... Partu dothla ...	Grazed by Thali of Srigarh, who also grazes Shili Danswari in Sahraj.	Dara dothla ... Nihari Naina	Grazed by Bija Ram of Naraingarh, see Nainthara gahr, once grazed by Suket shepherds; but they are grazed by shepherds from Naraingarh, who have gahrs in Rupi, and who pay grazing dues to the Rai just as those who graze in Rakti and Prali Danswari also pay. These dues must, however, be considered as being paid for the gahrs which in all these cases are in Rupi, and not on account of the nigahrs which are in Khalsa Shangar. The Rai takes the full Rs. 2 per 100, as if the whole of the grazing was in Rupi. At present this causes no complaint, but if Government should ever take dues from such shepherds for grazing in Shangar Kothi, it will be necessary to decide whether they will have to pay full dues to the Rai and also to Government, or whether only a part will be taken by each.
Jaula (2) dothla ... Rakti (of Sahraj) nigahr ...	Grazed by Devi Ram of Himri.		
Chang nigahr ... Gugu-tapa nigahr ...	At present unoccupied. The former has not been grazed for many yeats if ever, but the latter was grazed some ten years ago by Himri sheep

A. ANDERSON,
Deputy Commissioner.

General Provisions regarding the rights of the Rai of Rupi in the Protected Forests of the Rupi Jagir.

I.—Forest Produce.

1. In demarcated forests, the Rai may exercise without payment only such rights as have been allowed and recorded for each forest.

2. In the undemarcated forest and waste land, the Rai may exercise the following rights :—

(a). The right to cut shrubs and trees of all kinds without payment.

(b). The right to take minor forest produce of all kinds (such as grass, fruits, medicinal roots, birch-bark, &c.) without payment.

(c). The right to take limestone, slates and stones without payment.

3. All the rights referred to in clauses 1 and 2 are subject to the following conditions :—

(1). That the forest produce is required for the *bonâ fide* use of the Rai and his household, including the temple of Thakur Rughnathji at Sultanpur ; that it may not be sold or bartered or used in any way for purposes of trade or profit.

Illustration.—Timber supplied to or cut by the Rai for building purposes may not be used to build a house intended to be let for rent.

(2). That these rights do not exclude the rights of Government as proprietor of all forest produce, nor the rights of those who are recorded as having rights in the demarcated forests, nor the rights of those who have hitherto exercised rights in the undemarcated forest and waste lands.

Illustration.—The Rai may cut bamboos in Surjani 2nd class protected forest; they may also be cut by Government and by those zamindars that are recorded as having full rights in that forest.

(3). That (as in many cases walnut and other trees have been cut for the Rai's use and only a part of the timber has been removed, the rest being left to rot in the forest) it is incumbent on the Rai to arrange that timber cut for his use be removed and utilized.

(4). That the Rai is held generally responsible for the actions of those engaged in cutting wood or burning charcoal for the supply of his wants; that he will arrange that charcoal be burned in such a place that there will be no risk of the forest being set on fire.

(5). That in the case of demarcated forests, some part may be closed for reproduction in accordance with the record of rights and existing rules, and that in such portion the exercise of his rights shall be suspended.

(6). (a). That deodar, walnut, box and ash may not be cut without the permission of the Assistant Commissioner / Forest Officer, but that fallen walnut may be removed without permission.

The Assistant Commissioner / Forest Officer shall grant permission to cut such number of these trees as is *bonâ fide* required by the Rai for the purpose stated in his application, and he shall have the trees marked for cutting in places as convenient to the Rai as the maintenance of the forest will admit.

(b). When the Rai requires at one time from one forest any number of trees not exceeding ten of the following kinds :—

(1). Elm
(2). Alder
(3). Blue pine
(4). Chil
(5). Spruce
(6). Silver Fir
(7). Yew
(8). Cypress
(9). Shisham
(10). Olive
(18). Horse Chestnut
(12). Celtis
(13). Mulberry
(14). Hill Tun
(15). Kakaran
(16). Poplar

he may give a written order to the negi of the kothi in which he wants the trees, specifying the number, kind and size of the trees, and the purpose for which they are to be cut; and at the same time he shall send intimation to the Assistant Commissioner / Forest Officer, giving him the pariticulars of the order to the negi.

The trees shall be cut in presence of the rakha or forest guard in charge of the forest to whom the negi shall at the time give the Rai's order. The order shall remain in force not more than 3 months, at the end of which time or sooner, if all the trees have been removed sooner, the rakha or forest guard shall send the order to the Forest Officer with a report as to what has taken place. When the Rai has reason to believe that the timber will not be removed from the forest within 3 months, he may before the expiry of the three months renew the order, sending intimation to the $\frac{\text{Assistant Commissioner.}}{\text{Forest Officer.}}$

No second order on the same forest may be issued by the Rai until all the timber cut under the previous order has been removed from the forest.

(*c*). When the Rai wishes to cut from one forest at one time more than ten trees of the kinds detailed in (*b*), he shall apply to the $\frac{\text{Assistant Commissioner}}{\text{Forest Officer}}$ who shall give permission to cut such number of these trees as is *bonâ fide* required by the Rai for the purpose stated in his application, and he shall have the trees marked for cutting in places as convenient for the Rai as the maintenance of the forest will admit.

(*d*). The Local Government may, when it sees fit, remove any tree from clause (*b*) and put it into clause (*a*), and the procedure laid down in (*a*) shall then apply to such tree.

(*e*). Notwithstanding anything contained in (*b*) and (*c*) blue pine and chil may be lopped without a written order and without permission for charcoal in the undemarcated forests and in those demarcated forests where the right is recorded, provided that the trees are not less that 2 haths in girth at 3 haths from the ground, and are not lopped to more than one-third of their height.

(*f*). Notwithstanding anything contained in (*b*) and (*c*) dry standing and fallen trees of the kinds detailed in (*b*) may be cut and removed without the permission of the $\frac{\text{Assistant Commissioner}}{\text{Forest Officer}}$, from the undemarcated forests and from those demarcated forests where the right to such trees is recorded.

(*g*). All trees and shrubs not included in (*a*) and (*b*) may be cut without a written order and without the permission of the $\frac{\text{Assistant Commissioner}}{\text{Forest Officer}}$ from the undemarcated forests and from those demarcated forests where the right to such trees and shrubs is recorded, but if the fellings are so large or are confined to so small an area as to materially affect the rights of the people or to denude the forest, the $\frac{\text{Assistant Commissioner}}{\text{Forest Officer}}$ may order that fellings shall cease in that particular locality, and shall indicate some other place for the exercise of the right

(7). Slates, limestone, and stones may be taken from the undemarcated forests and waste and from those demarcated forests where the right is recorded provided that damage is not done to any of the trees enumerated in clause 6 (*a*) and (*b*).

II.—CONDITIONS AS TO PROPERTY IN THE SOIL OF UNDEMARCATED FORESTS AND WASTE.

1. The Rai shall henceforth be considered the proprietor of the soil of the undemarcated forest and waste, this right being now conferred on him by Government subject to the conditions herein recorded.

2. The Rai may give leases of such land for new cultivation and for the construction of buildings and of water-mills near streams.

3. The rights referred to in clause 1 and 2 are subject to the following conditions:—
